

NATURE'S PORCH MAJOR GIFT INITIATIVE

The establishment of Nature's Porch is dedicated to the children and families who love the outdoors and provided the vision and support to build it. A certified Connecticut grown building that used fallen trees from Winding Trail's property and local responsibly harvested wood to build a beautiful environmental education center. Nature's Porch strengthens our mission of preservation and stewardship of natural woodlands and waterways and provides space for people of all ages to come together as community and share the wonders of nature. Winding Trails would like to thank the following for their generous support on this project.

Leadership Circle (\$5,000+)
